

Sona Bhatta

(985)3636822 Hammond, LA

EDUCATION

Southeastern Louisiana University (SLU)

Hammond, LA

Bachelor of Science in Information technology

Expected Graduation: May 2027

Relevant Coursework: Algorithm Design & Implementation I, Object-Oriented Programming, Discrete Structures, Software Engineering, Data Structures, Computer Architecture, Computer Networking security, Integrated Tech systems, Information Systems, Essentials of Modern Computing System, Ethical hacking, System Administration, Human Computer Interaction.

RELATED EXPERIENCE

STEM Student Assistant | Southeastern Northshore Stem Center

Hammond, LA

August 2025- May 2025

- Managed and maintained a variety of high-tech equipment, including NVIDIA Jetson robots, VR systems, and flight simulators, ensuring all resources were operational for workshops and demonstrations.
- Developed and facilitated engaging STEM activities and workshops for K-12 students, focusing on robotics, virtual reality, and flight simulation to inspire interest in technology.
- Acted as a lead presenter for STEM outreach events, showcasing center resources and actively encouraging young girls to explore STEM fields through hands-on demonstrations.

Computer Science Tutor | Department of Computer Science

Southeastern Louisiana University

August 2024- Dec 2025

- Provide individualized and group tutoring sessions in programming, data structures, and algorithms.
- Simplify complex topics, including object-oriented programming, database management, and software development.

Network Support Student Assistant | Information Technology Solutions

Southeastern Louisiana University

June 2025- August 2025

- Troubleshoot Wi-Fi connectivity issues across 10 residence halls, ensuring reliable internet access for all residents.
- Perform diagnostic checks and repairs on building Ethernet cable infrastructure to maintain consistent wired network performance.
- Coordinate with the Network Engineering Coordinator to identify and resolve access point (AP) outages and ensure timely restoration of service.

Student Assistant | Department of Mathematics

Southeastern Louisiana University

June 2025- August 2025

- Answering incoming calls to the department, directing calls to the appropriate faculty or staff member, particularly the Head of the Department, and taking messages when necessary.
- Collecting physical mail from the departmental mailbox daily, sorting it, and distributing it to the appropriate faculty and staff members.

PROJECT EXPERIENCE

Event Management Platform

Technologies: .NET, React, TypeScript, Material-UI, C#, SQL (SQL Server, PostgreSQL, MySQL)

Developed a campus platform for students to discover, share, and organize events. Built a responsive React/TypeScript UI with Material-UI, RESTful APIs in .NET/C#, and managed event data across multiple SQL databases.

Lions Den Cinema

Technologies: .NET, C#, React, TypeScript, Expo, Azure SQL, GitHub Actions, Azure App Services

Built a full-stack theater management app for scheduling, reservations, ticketing, and concession ordering. Developed mobile/web UIs with React & Expo (including dark mode), secured REST APIs with .NET/C#, and deployed via CI/CD pipelines on Azure.

Interview Analyzer :

Technologies: Whisper Large V3 (speech-to-text), XLSR Wav2Vec2 (emotion detection), Google Gemini API (content feedback)

Developed an AI-powered interview practice tool that converts spoken responses into transcripts, detects emotions and filler words, and generates structured feedback. Delivered insights through an interactive dashboard, helping users improve communication effectiveness and interview performance.

LEADERSHIP EXPERIENCE

Public Relations & Marketing | Women in tech

Southeastern Louisiana University

January 2025- May 2025

- Designed and produced engaging graphics to promote student programs and initiatives.
- Managed social media channels, increasing visibility and engagement among international students
